

Christian Education

Social skills and character development are an integral part of the Primary School Curriculum. Students are encouraged to make healthy choices by learning core values; love, caring, courage, fairness, honesty, knowledge, respect and responsibility. Our students learn about God's love through a continuous, daily Christian Education curriculum and weekly Chapel lessons. Our desire at the Primary School is for the students to come to know God, to experience Jesus' love and to respond to that love as the Holy Spirit works in their hearts. Our curriculum includes selected materials from Gospel Light (www.gospellight.com) and Karyn Henley (www.karynhenley.com). Students learn and apply Biblical truths in fun ways, including music, games, art, skits, object lessons, worship time and Bible stories.

Children's Ministry

During our Sunday Worship service, our students have the opportunity to attend their own age-appropriate service. This ministry is specially designed to meet the spiritual needs of each child in our care. The children are taught about God's love through age-appropriate curriculum, art activities, music, games and creative teaching techniques. Each Sunday, children are insured a fun-filled, spirited learning experience which helps to establish a strong foundation in his/her faith, through Christ. For more information, please contact our children's minister at 407.843.7197 Ext. #38.

Service Learning

As a class, each grade at the Primary School chooses a service learning project to complete. Projects include collecting items to help less fortunate people, raising money to find cures for illnesses, visiting the elderly, helping our environment, etc.. These projects teach children compassion and the power they possess to make a difference in the world. This is a wonderful opportunity to share God's love in our community.
